

a diesel generator. The staging area would be set up to accommodate a guard's camper trailer and chemical toilet for the crew. A 20 foot air-sea cargo container (for storage of small tools) and a 500 gallon diesel fuel storage tank would be in the same general location.

During a preliminary environmental analysis, it was determined that an area of Forest Service sensitive plants and their habitat exists on the North Star limestone area, and that the plants and habitat would be impacted by any developmental alternative. For the reason, it was determined that the proposal could have significant effects on the environment, and an EIS is needed.

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and to be available for public review by September 1995. At that time EPA will publish a notice of availability of the draft EIS in the **Federal Register**.

The comment period on the draft EIS will be 45 days from the date that the EPA's notice of availability appears in the **Federal Register**. It is very important that those interested in the management of the north slope of the San Bernardino Mountains participate at that time. To be the most helpful, comments on the draft EIS should be as specific as possible and may address the adequacy of the statement or the merits of the alternatives discussed (see The Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3). In addition, Federal court decisions have established that reviewers of draft EISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' position and contentions, *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978), and that environmental objections that could have been raised at the draft stage may be waived if not raised until after completion of the final environmental impact statement. *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334 (E.D. Wis. 1980). The reason for this is to ensure that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final.

After the comment period ends on the draft EIS, the comments will be analyzed and considered by the Forest Service in preparing the final environmental impact statement. The final EIS is scheduled to be completed

by December 1995. In the final EIS, the Forest Service is required to respond to the comments received (40 CFR 1503.4). The responsible official will consider the comments, responses, environmental consequences discussed in the EIS, and applicable laws, regulations, and policies in making a decision regarding this proposal. The responsible official will document the decision and reasons for the decision in the Record of Decision. That decision will be subject to appeal under 36 CFR 211.18.

**DATES:** Comments are requested on this notice concerning the scope of the analysis of the draft EIS. Comments must be received within 30 days of the publication date of this notice.

**ADDRESSES:** Submit written comments and suggestions concerning the scope of the analysis to Gene Zimmerman, Forest Supervisor, San Bernardino National Forest, 1824 S. Commercial Circle, San Bernardino, CA 92408-3430.
